

Loft Permission Slip

Dear Grownups,

If you've been in our classroom you may have noticed the reading loft I purchased several years ago. This is a commercially built loft by a company called Timbernest. The loft is typically designed and used for college dormitories.

In the classroom, the loft is used as a cozy nook for students to work. They stretch out; both within and under, with clipboards, books, and papers. Students appear to truly enjoy it and I feel comfortable learning promotes positive learning.

If you are comfortable having your child utilize the loft, please sign the permission slip below. The class and I will process appropriate rules and behaviors to keep us safe while using it. I have also forewarned students that not all grownups may feel comfortable with this and they need to respect your decision.

I give permission for (my child) _____ to use the loft in Mrs. Buswell's classroom. I understand the loft is approximately 5 feet off the ground and has been constructed by a commercial company. I also understand my child participated in developing the rules for loft use and I hold harmless Mrs. Buswell, Malletts Bay School, and the Colchester School District for any accident involving its use.
